	3. Seminar Speaker – Project Management

HIGHLIGHTS OF TRAINER’S PROFILE

Daniel Alfred is a civil engineer who has been in practice since 1987. Prior to that he was a technical assistant. He has been working for different large consulting firms like Minconsult and HSS Integrated. In the 1980s, he worked in Canada for the Alberta Department of Highways.

His experience includes highways, buildings and infrastructure projects. His involvement was in design and supervision. In the early 1990s, he went into the ICT sector as the CADD consultant for Sapura IT for the Architecture-engineering-Construction (AEC) market.

He has been in project management practice from the late 1990s to date. This saw him undertaking the project management in engineering and ICT projects. In 2001, he became the CEO of the HSS group’s project management subsidiary, HSS Intesys. In this position, he managed project scheduling services for client projects using Primavera Project Enterprise and Planner versions.

Since 2003, he has been a full-time freelance trainer in project management methodology – empowering project managers and executives. Clients are from various sectors: Construction, ICT, Power, Telco, Oil & Gas, Manufacturing, Banking, Government Agencies, Customer Services. In between, he still undertakes project consulting for single clients at a time.
